DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 6 and 11-14 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Specifically, the claims are directed to computer programs or data structure that are not limited to being embodied on a tangible computer-readable medium. The claim could be amended to be statutory by inserting language stating that the computer program is encoded on a computer-readable medium. See MPEP 2106.

Allowable Subject Matter

Claims 1-5 and 7 are allowed.
